## Content Aggregation at Its Best

Curated using a proprietary taxonomy and advice from our international Books Advisory Board, both collections bring essential DEI and sustainability titles together, including thousands of ebooks covering topics mapped to the Sustainable Development Goals (SDGs) of the United Nations as well as major DEI subjects including Women's Studies, Asian Studies, Equity & Social Justice Studies, Indigenous and Native Studies, Black Studies, Middle Eastern Studies, and more.

*"Having the ebook subscription of DEI-focused titles greatly improves and enhances access to resources in this area. It is a timely development, as we are all looking to fill the gaps in our existing provisions."*

– Elizabeth Charles, Assistant Director of Library Services at Birkbeck, University of London
